

## Mathematical Communication Rubric

### Grade 2 - 3

	4 - Mastery	3 - Proficiency	2 - Approaching	1 - Beginning
				
<b>Mathematical Vocabulary</b>	I can use the Math word correctly, giving a definition and/or give an example from my world.	I used the Math word correctly.	I sometimes used the correct Math words.	I did not use the Math words correctly.
<b>Mathematical Representation</b>	I can correctly show the work in 2 or more ways. (with Math words, pictures, numbers or symbols, charts, and /or graphs)	I used one way to correctly show my work. (with Math words, pictures, numbers or symbols, charts, and/or graphs)	I tried to show my work (with Math words, pictures, numbers or symbols, charts, and/or graphs) but I made some mistakes or only kind of got it right.	I just didn't know what to do and need more practice.
<b>Explanation</b>	I explained my work in writing. It was easy to understand and I gave all the details.	I explained my work (wrote it out or told my teacher.) I gave all the details.	I explained my work (wrote it out or told my teacher). I missed some details.	I didn't explain my work well enough.
