

Barry Hollick

I am seeking re-election to the Public School Board. I am doing this with the encouragement and support of my fellow trustees. My educational background and experience are viewed as valuable assets that enable me to meaningfully contribute to the ongoing success of our school division.

I have been a lifelong resident of Prince Albert and I have had a lengthy association with our Public School system – as a student, as a teacher, and presently as a trustee.

Having attended the University of Saskatchewan, I received my B.A., B.Ed., and M.Ed. degrees. During my career I have acquired valuable experience through my involvement in educational organizations. Locally, I served as President of the PA Teachers' Association; provincially, I served as a Councilor with the Saskatchewan Teachers' Federation; and nationally, I served as a Children's Advocate for the Canadian Teachers' Federation. I also served as a member of the University of Saskatchewan Senate for six years. These were all valuable experiences for me as a trustee.

I was honored to serve as our Board Chair for eleven years. During that time our Board won the Premiers' Award for Excellence and Innovation for promoting student trusteeship and Student Voice. I will continue to advocate for additional funding for vulnerable students. Our Board is very proud of our staff and administration which is second to none. We all work to provide all of our students with the opportunity to achieve success.

I hope I can count on your continued support.
